

357SA

Low VOC

Premium Spray Adhesive

Product Description

357 is a high-performance adhesive designed with premium-grade resins to meet the most demanding bonding needs. With a rubber-based formula and exceptional performance across a wide temperature range, it is the ideal solution for both temporary and permanent applications

Applications

- Bonding carpets
- Securing insulation/liner materials to duck work
- Securing labels
- Suitable for permanent or temporary bonds
- Bonding fabric, insulation plastic films, felt, rubber leather, cork, paper, cardboard, metal, wood
- Excellent for laminating foam materials to a variety of substrates

Features

- Rubber Based
- Low VOC content
- Wide Finger Pad Nozzle

Benefits

- Fast skin, fast grab, low soak-in
- Performs over a wide temperature range
- Good UV, moisture, and oxidation resistance
- Can contribute toward satisfying EQ Credit 4.1 (Low Emitting Materials) under LEED®
- Provides increased comfort over extended use

Application Instructions

- Shake well before applying. Spray an even coat from a distance of 6-8 inches.
- For permanent bonds, spray both surfaces. Allow 1-2 minutes for tack to develop. Apply firm pressure.
- For temporary bonds, apply a light, even coat to one surface; allow tack to develop. Apply firm pressure.
- When finished spraying, turn can upside down and spray for 2 seconds to prevent nozzle from clogging

Caution: Extremely Flammable. Please review all safety instructions on the product package prior to use.

Technical data

Product Size	14 oz Net Wt; 19.6 FL OZ	Bonding Time	1 minute to one hour
Spray Pattern	Lace/Web	Evaporation Rate	20-30 seconds
Colour	Light Amber	Coverage Area	Varies
% Solids	24% Premium Resins	VOC Content	<55% by weight
Operating Temp	-10 to 180 °F (-23 to 82 °C)		

Recommended Storage Conditions: 60-80 °F at 40-60% RH | Standard Shelf Life (at 25 °C): 24 months from date of manufacture.
